Notice Period: Immediate Joiner

PROFESSIONAL SUMMARY

Expert QA Engineer with 6+ years of experience leading end-to-end (E2E) quality engineering, manual testing, API validation, and test automation across HR-Tech, Healthcare, EdTech, and SaaS domains. Experienced in developing automated test frameworks and scripts using Selenium WebDriver (Java) and Playwright (TypeScript) along with CI/CD execution via Jenkins and GitHub Actions. Skilled in validating RESTful APIs and AI-driven/GenAI platform features. Demonstrated ability to improve release quality, streamline regression execution, and partner with cross-functional Agile teams from requirement reviews (PRD/BRD) through UAT to production deployment.

PROFESSIONAL EXPERIENCE

QA Engineer II | Joveo Technologies Pvt. Ltd., Bangalore

Sep 2023 - Present

Independent QA owner for TAO products (CMS & CRM), handling E2E product testing and extending support to the Implementation team during client go-lives.

- End-to-End Product & Hiring Flow Testing:** Owned full-funnel E2E product testing across CMS (Branding Hub, Media Library, Form Builder) and CRM modules (Jobs, Candidates, Workflows, Segments, Campaigns, Messaging Hub); validated the complete recruiter and candidate journey from job creation and career site publication through Easy/Fast Apply flows, candidate capture, interview scheduling via Joveo Chrome Extension, and ATS synchronization up to the final hiring stage.
- Product Quality Ownership:** Led end-to-end QA ownership for core CMS and CRM modules, reviewing PRD/BRD requirements, creating test plans, and managing zero-defect production deployments.
- Automation Engineering:** Developed automated regression test suites using Selenium with Java and basic Playwright with TypeScript scripts accelerated via Claude Code, expanding automated test coverage to 60% and reducing regression execution cycles by 35%.
- API & Microservices Testing:** Executed comprehensive REST API testing using Postman to validate payload data integrity, authentication headers, and response latency across 8+ ATS integrations (Workday, Greenhouse, Salesforce, SmartRecruiters).
- AI Feature QA & Automation:** Executed structured testing for Agentic AI features, AI-generated content, and prompt-driven workflows using Claude Code, cutting manual test-data creation time by 40%.
- CI/CD Integration & Workflows:** Integrated automated test scripts into Jenkins/GitHub Actions pipelines for automated nightly builds and scheduled regression triggers.
- QA Process Optimization & Hub Implementation:** Architected a centralized QA Hub to streamline pull-request (PR) validation testing, code quality checks, AI-driven test-prompt generation, and defect lifecycle management, drastically reducing manual regression overhead and improving engineering velocity.
- Stakeholder Collaboration:** Facilitated UAT sessions with Product, Development, and Implementation teams, ensuring 100% compliance with client go-live requirements.

Software Test Engineer | LeadSquared, Bangalore

May 2022 - Mar 2023

- Functional & API Validation:** Performed smoke, functional, compatibility, system, exploratory, and REST API (HTTP request/response) testing for key CRM client accounts (Apay, Bajaj, OLA, Treebo, Sonalika).
- Requirements & Account Configuration:** Studied Business Requirement Documents (BRDs) and Data Gathering Sheets to write/review 250+ test scenarios and configured accounts per SBD alongside Business Analysts.
- Defect Lifecycle Management:** Tracked, reported, and prioritized critical defects in Jira, coordinating fixes with developers and driving re-testing through to production release.

Test Engineer | Indegene Pvt. Ltd., Bangalore

Mar 2021 – May 2022

- **Healthcare Domain QA:** Executed test cases across release phases for RTE, emailers, iPDF, i-detail assets, banners, and web platforms for global pharmaceutical clients (Pfizer, Gilead).
- **Defect & Requirement Review:** Tracked and prioritized defects with development teams while reviewing technical design documents and BRDs early in the SDLC to deliver timely feedback.

Test Engineer | Qualitrix Technologies, Bangalore

Feb 2020 – Mar 2021

- **Agile Application Testing:** Tested web, offline desktop, and mobile applications (Diksha, Examonline, Impartus, Aha, BigBasket) within an Agile/Scrum team of 21.
- **Selenium Framework Development:** Automated test scripts using Selenium WebDriver (Java) with Page Object Model (POM), TestNG, data-driven design, and synchronization waits.
- **Defect Tracking & Performance QA:** Logged, tracked, and reported defects in Jira; prepared detailed execution reports and utilized JMeter for foundational performance testing.

CORE SKILLS

Quality Assurance & Testing: End-to-End (E2E) Testing, Functional Testing, Regression Testing, Smoke/Sanity Testing, Exploratory Testing, Compatibility Testing, Cross-Browser Testing, System Testing, User Acceptance Testing (UAT), User Experience (UX) Validation.

Test Automation & Frameworks: Selenium WebDriver, Basic Playwright, Java, TypeScript, TestNG, Page Object Model (POM), Data-Driven Testing Framework, Synchronization, Assertions.

API & Database Testing: REST API Testing, Postman, JSON/XML, HTTP Status Codes, Swagger, SQL Queries, PostgreSQL, MongoDB, Snowflake, DBeaver.

AI / GenAI QA & Evaluation: Agentic AI Testing, RAG (Retrieval-Augmented Generation), LangChain, LangGraph, LLM Evaluation (Relevance, Hallucination, Latency), Prompt Engineering, Claude Code, GitHub Copilot, Cursor, MCP Server.

DevOps, CI/CD & Build Tools: Jenkins, GitHub Actions, Docker, Maven, Git, GitHub, Version Control.

Defect Tracking & Monitoring: Jira, TestLink, Redmine, Grafana, Log Analysis, Defect Life Cycle Management, Joveo QA Hub (Internal tool).

Domain & Methodologies: HR-Tech / ATS Integration (Workday, Greenhouse, Salesforce, SmartRecruiters), Healthcare, EdTech, Agile/Scrum, SDLC, STLC.

EDUCATION & CERTIFICATIONS

Certification: Software Testing Certification (Manual & Selenium Automation), QSpiders, 2019

Education: Bachelor of Engineering (B.E.) in Mechanical Engineering
Bapuji Institute of Engineering and Technology (BIET)
2015–2019
